

Joint Workshop

Making transition plans work – Research and practice perspectives on transition plans and transition risks assessment

Tuesday, 24 September 2024 | 09:00-16:00 CET |

@ German Institute for Economic Research (DIW Berlin), Mohrenstraße 58, 10117 Berlin
Chatham House Rule

Agenda

09:00 *Coffee and registration*

09:15 **Welcome and Introduction**

09:30 **Session 1: What are use-cases for transition plans? What scenario(s) are required?**

Session Chair: Karsten Neuhoff

Opening comments:

- *Strategy, Resilience, Implementation: How do companies use transition plans for strategic purposes?* Schott AG, David Klein
- *Net-zero alignment: Climate scenarios – an asset level analysis*, University of Oxford, David Kampmann
- *Identifying and quantifying transition risks: First insights from an interview-based analysis with risk experts*, University of Gießen, Alix Auzepy

Guiding questions:

- To what extent are transition plans part of these use-cases?
- Which requirements do they need to meet to better serve the use cases?

11.00 - 11.30 *Coffee break*

11:30 –13:00 **Session 2: Synergies and complementarities between use-cases and scenarios**

Session Chair: Catherine Marchewitz

Opening comments:

- *Implications of core & accelerated scenario for transition risks in energy-intensive industries*, DIW, Fernanda Ballesteros
- *Use of scenarios for net-zero alignment and transition risk management*, BNP Paribas, Frank Sibert

Guiding questions:

- What are specific synergies that can be realized across use cases? What would this require?
- What are structural differences that will remain?
- Can we define a reference scenario for all three use-cases?

13:00 - 14:00 *Lunch*

14:00 - 15:30 Session 3: What regulatory options exist to unlock synergies across use cases?

Session Chair: Franziska Schütze

Opening Comments:

- *Prudential transition plans and the role of the supervisors*, I4CE, Julie Evain (virtually)
- *Regulatory requirements for financial regulation/ prudential regulation*, CETEX LSE Agnieszka Smoleńska

Guiding questions:

- Which synergies have been found and what is necessary to unlock them?
- How to facilitate coordination towards common standard(s) and scenarios(s)?
- What are potential regulatory options to unlock these synergies?
- How can it be embedded in the current regulatory framework?

15:30 – 16:00 Session 4: Wrap-up and outlook

Session Chair: Karsten Neuhoff
